

# WELCOME!

## EVIDENCE BASED DEPRESCRIBING GUIDELINE SYMPOSIUM 2018

### Deprescribing Guidelines Education and Research

**Lalitha Raman-Wilms, BScPhm, PharmD, FCSHP**

Professor and Dean, College of Pharmacy

Rady Faculty of Health Sciences, University of Manitoba

#deRx2018

# Objectives

- Develop partnerships with educators and researchers
- Build knowledge, skills and support for behaviour change to integrate use of evidence-based deprescribing guidelines into health care professional practice
- Develop an international deprescribing guideline development and research agenda
- Identify deprescribing guideline evaluation strategies and relevant outcome measures

# Deprescribing Guidelines Education and Research

## *Are implementation of deprescribing guidelines effective?*

- Does it lead to quality improvement in clinical practice?

## *How do we ensure long-term sustainability of this practice in health care?*

- Can it be embedded within Health Professional Curricula at all levels?

# Deprescribing Guidelines Education and Research – the interplay and the way to move forward

**Lisa Dolovich, BScPhm, PharmD, MSc**

Professor, Ontario College of Pharmacists,  
Leslie Dan Faculty of Pharmacy, University of Toronto

**Ivy Oandason, MD, CCFP, MHSc, FCFP**

Associate Director, Academic Family Medicine,  
College of Family Physicians of Canada
