

DEPRESCRIBING RESEARCH PRIORITIES

Emily Reeve BPharm PhD
NHMRC-ARC Dementia Research Development Fellow
University of Sydney

Wade Thompson BScPhm PharmD MSc
PhD fellow
University of Southern Denmark

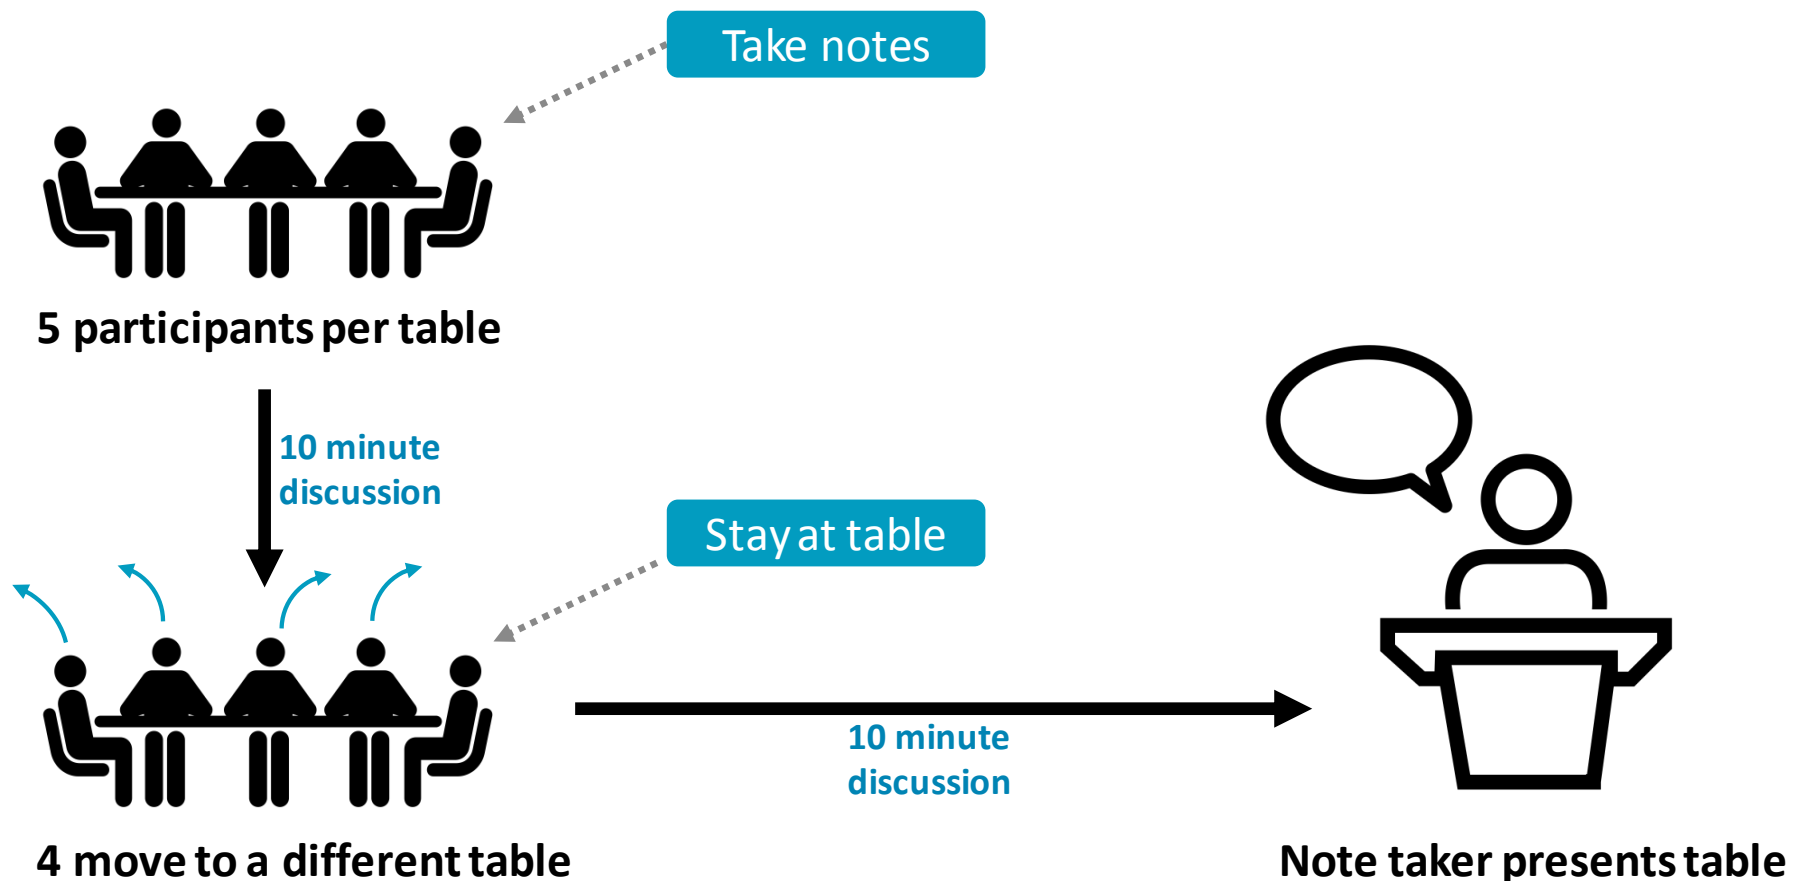

Learning Objectives

1. Gain insight into priority areas for deprescribing research
2. Gain insight into which outcomes will be important for future deprescribing studies
3. Understand perspectives and priorities of the international deprescribing community to improve planning and design of future deprescribing studies

World café- how does this work?

First question

What are deprescribing research priorities to inform guideline development?

deprescribing.org

INSTITUT DE RECHERCHE

Bruyère
RESEARCH INSTITUTE

Second question

What outcome measures are important for developing deprescribing guidelines?
